

arts. Mashama also received the James Beard Award for Best Chef: Southeast back in 2019.

Throughout her career, she has taken the fine dining world by storm through her exceptional dishes that have helped put Savannah among some of the best culinary spots in the Nation.

Mashama's commitment to her passion has fed many Savannahians some of the best food in the world, and she is an inspiration to the First Congressional District.

Congratulations, Mashama, and good luck in your future endeavors.

CRACKING DOWN ON UNFAIR SHIPPING FEES

(Ms. BROWN of Ohio asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BROWN of Ohio, Madam Speaker, supply chain disruptions caused by the pandemic have contributed to rising prices across America. These disruptions included considerable congestion at our ports last year.

In this void, the Port of Cleveland in my district, increased its tonnage by nearly 70 percent, helping to keep goods moving across America and beyond.

Yet, even as congestion has eased, international shipping companies have been charging extremely high fees to transport goods.

This is driving up costs on store shelves and hurting our small businesses while leaving key products waiting on our docks.

Last week, the House passed, and President Biden signed into law the bipartisan Ocean Shipping Reform Act. The law cracks down on these unfair shipping fees.

This will help goods get in and out of docks like the Port of Cleveland quicker, it will reduce costs for families, and it will level the playing field for our businesses. I call that a win-win.

RECOGNIZING DR. DAVIE JANE GILMOUR

(Mr. KELLER asked and was given permission to address the House for 1 minute.)

Mr. KELLER, Madam Speaker, after nearly 25 years of service as President of the Pennsylvania College of Technology, Dr. Davie Jane Gilmour is retiring.

During her accomplished tenure, Dr. Gilmour has guided Penn College through challenges, growth, and innovation, ultimately shaping the institution into a national leader in applied technology education.

Penn College has stepped up in a big way to develop Pennsylvania's workforce and close the skills gap, largely due to Dr. Gilmour's vision and commitment to giving students the tools to excel in high demand fields.

Dr. Gilmour and I share that vision, and I have enjoyed working with Penn

College in Congress to develop policies that bring job creators and the workforce closer together, expand opportunities for career and technical education, promote economic development, and spur job creation.

I thank Dr. Gilmour for her service, vision, and tireless commitment to Penn College's important mission. I wish Dr. Gilmour all the best in her future endeavors.

BUILDING A BETTER AMERICA

(Ms. GARCIA of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. GARCIA of Texas, Madam Speaker, I rise today to applaud President Biden and House Democrats' efforts to lower the cost of goods for hardworking American families.

As we have seen, war criminal Putin has caused price hikes by way of his cruel war on Ukraine. As a result, Americans are seeing rising costs at the gas pump and the grocery stores and across the shelves of stores.

While extreme MAGA Republicans have chosen to play the blame game, President Biden and House Democrats have decided to take action. Together, we are delivering results.

We have passed key bills like the Lower Food and Fuel Costs Act, which will strengthen supply chains and produce cleaner and cheaper gas. This will lead to lower prices.

You see, Democrats are laser focused on lowering costs for hardworking families, not helping greedy billionaires and greedy companies. Together, we will continue building a better America.

PROTECTING INDIVIDUAL FREEDOMS

(Mr. SMITH of Missouri asked and was given permission to address the House for 1 minute.)

Mr. SMITH of Missouri, Madam Speaker, as a strong advocate and fighter for the Second Amendment, I cannot support the Senate's gun control bill.

The legislation is simply another attempt to blame law-abiding gun owners instead of holding accountable the disturbed criminals who are carrying out despicable acts of violence.

The gun control bill would strengthen red flag laws, which take away individuals' due process rights, while allowing law enforcement to remove guns from individuals at the request of an expansive list of acquaintances.

In America, a person is innocent until proven guilty. But liberal Democrats, they don't see it quite that way. The presumption of innocence—the foundation of our criminal justice system—apparently does not apply to law-abiding gun owners in the world of the Democrats' vision.

I will fight tooth and nail to protect families from Washington Democrats'

relentless attacks on our freedom and way of life.

McGOVERN-DOLE INTERNATIONAL FOOD FOR EDUCATION AND CHILD NUTRITION PROGRAM

(Mr. McGOVERN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McGOVERN, Madam Speaker, I rise today to celebrate the George McGovern-Robert Dole International Food for Education and Child Nutrition Program.

Twenty years ago, Congress established McGovern-Dole as a permanent program under USDA in the 2002 farm bill. McGovern-Dole provides at least one nutritious school meal to some of the world's most vulnerable children.

It is a life-changing program that has improved the food security, nutrition, literacy, and education of 31 million children, their families, and communities—building goodwill toward the American people in over 48 countries.

With the support of American farmers, ranchers, and millers, McGovern-Dole programs are carried out by NGOs, the U.N. World Food Programme, local partners with U.S. financial and technical assistance, and U.S. and locally purchased food commodities.

Congressman TRACEY MANN and I have introduced H. Res. 1156 to continue the McGovern-Dole program and build upon its 20 years of success. I invite all of my colleagues to cosponsor and support this resolution.

INFLATION

(Mr. ROSE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROSE, Madam Speaker, Federal Reserve Chair Jerome Powell has confirmed what we knew all along: Inflation isn't because of Putin's disgraceful invasion of Ukraine. It is because of President Biden's and congressional Democrats' reckless spending.

Earlier this week, during a Senate Banking Committee hearing, my friend and fellow Tennessean, Senator BILL HAGERTY, pointed out that inflation had already risen to 7 percent well before the war in Ukraine.

He asked Chair Powell if the war in Ukraine is the primary driver of inflation. Chair Powell responded, "No. Inflation was high before, certainly before the war in Ukraine broke out."

This isn't a Putin price hike, it is Bidenflation, and the Biden administration and congressional Democrats and their allies in the mainstream media need to stop with the misdirection and misleading excuses. Thankfully, Tennesseans are smart and can recognize the difference.

Taking responsibility for mistakes followed by straight talk are necessary prerequisites for getting us out of this
